BOOK 1661P2843

The Grantors covenant that they are seized of the aforesaid premises in fee and have the right to convey the easements or rights-of-way hereby granted; that same are free from encumbrances; and that they will warrant and defend said title to said easements or rights-of-way against the claims of all persons whatsoever.

The Grantors agree that the consideration hereinabove recited includes payment for any and all damage of whatsoever nature done or to be done to any structure, or to trees, crops of other vegetation within the boundaries of said easements or rights-of-way in connection with said water and/or sanitary sewer lines, and the Grantors agree, for themselves, their heirs and assigns, that they shall neither have nor make any claim for further damages by reason thereof.

The Grantee agrees that the Grantors, their heirs and assigns, may cultivate the soil within the boundaries of said easements or rights-of-way, provided such cultivation shall not interfere with the operation, repair, maintenance, replacements and/or removal of said water and/or sanitary sewer lines. No trees of any kind shall be planted and/or cultivated, and no buildings shall be erected within the boundaries of said easements or rights-of-way by the Grantors, their heirs or assigns. No water shall be ponded over said easements or rights-of-way by the Grantors, their heirs or assigns. No fill may be placed over said easement without written permission granted in advance by the Grantee, except for uses expressly permitted herein. The Grantors shall have no right to use the property subject to this easement other than as set forth above.

The Grantee will pay the Grantors, their heirs or assigns, for any damage to their growing crops, within or without the boundaries of the said right-of-way, that may from time to time be caused by leaks in said water and/or sanitary sewer lines or by the repair, maintenance, or replacement of said water and/or sanitary sewer lines by the Grantee, its agents or employees; provided, however, that the mere existence of said water and/or sanitary sewer lines and any effects that their presence and ordinary operation may have upon the soil and/or crops within the boundaries of said easement or right-of-way or upon the property of the Grantors outside the boundaries of the easement or right-of-way, or any replacement of the lines may have upon the soil, shall not entitle the Grantors to any damages. Further, the Grantors shall not be entitled to any damages for trees hereafter cut by Grantee, its agents or employees, within the boundaries of said easement or right-of-way. Compensation for all the above is included in the consideration hereinbefore recited.

Said water and/or sanitary sewer lines shall at all times be deemed personalty; they shall not become a part of the realty through or across which they pass.
